4. Public Hearing for LCB File No. R128-20 (For Discussion)

Public comment during the hearing for LCB File No. R128-20 included emails from the following individuals read into the record by the Executive Director.

Written public comment was provided by Monica (no last name provided) via email.

I just found out that today at the board meeting you will be voting on adding a test about laws when renewing one's massage license. I would like to place my vote denying this additional step to our license renewal.

First of all we're was this publicly posted for other licensed massage therapist to find out this information to be able to vote? Did not see it on the website.

Second it is already a challenge to renew our license. Now you want to make it harder to get our license and if we don't pass the test then you can deny us getting a license all together? Potentially taking away our livelihood to support our families. You do realize that those of us that have an active license are already following the state guidelines. What about all the business that are not licensed yet they are still massaging and offering other questionable services? By continuing to allow these business to stay in business which you are, you are not protecting our community. Where is the checks and balances here?

Third since the board does not get funding from the state you will be bring in less money because you will be denying more renewals.

Fourth you start rejecting renewals you risk more therapist working without a license. Since the board can't already keep up with those who are not licensed this will complicate things even more in our community.

Hope all the board members make the right decision to deny this additional step to renewing our license.

Written public comment was provided by Rachel Ragan via email.

I am writing you in opposition to this new rule that is trying to be placed. First of all I don't think that those of us in the community and who ARE complying should be punished for those who Aren't complying. What if you made the ones who aren't complying answer questions to keep their license? Honestly we are just trying to survive very trying times right now and adding more to it is not the answer for the ones who aren't doing anything wrong. We have families to feed and I'm sure you will see a lot of people who would just work anyways. Think about how this will affect your paycheck too! Aren't you funded off of our renewal fees? Do us a favor and go after the bad ones who are doing happy endings and making us professionals look bad!

The Chair asked for additional public comment. No attendees on the Zoom meeting spoke, raised hands our posted in the Chat.
