Re: Letter of Recommendation

Date: January 3, 2023

To the Board:

Please allow this letter of recommendation for Jajuane Fisher.

Jajuane was a former student at Northwest Career College. His start date as a student in the massage clinic was in November 2021. During this time, I was a Student Clinic Lead Instructor at the college.

Jajuane graduated school and finished his student clinic hours in May 2022.

It is my understanding that Jajuane had a difficult start in life and, unfortunately, spent most of his early life in prison for non-violent crimes.

I sincerely believe that people deserve second chances, which is the reason for my recommendation.

Jajuane was always a pleasure to teach. He was truly interested in understanding how the body works and took his training very seriously. He attended as many extra labs that were available in order to learn how to help certain clients with special issues. It was clear to me that he genuinely wanted to make a difference in peoples' lives through his massage skills.

He had many clients return to him because of his ability to

perform an excellent massage. Personally, I was always very comfortable getting on Jajuane's table and enjoyed his massages thoroughly.

Thank you kindly for taking this into consideration when making your determination in granting Jajuane a license for massage therapy.

Sincerely,

/s/ Amber Guittar
